

Soru 1. $L = \{ba^n : n=4k, k \geq 1\}$ ifadesine ait DFA çiziniz?

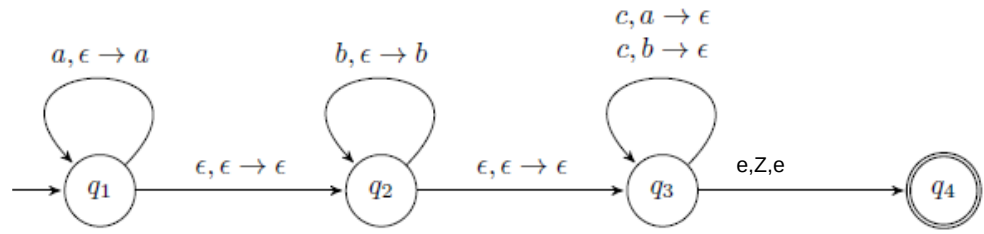

$$L = \{w \mid (|w|_a - |w|_b \equiv 1 \pmod{3})\}$$

Soru 2. (alfabe: a, b) Yukarıdaki dile ait grameri yazınız.

S	$\rightarrow$	aA bB
A	$\rightarrow$	aB bS λ
B	$\rightarrow$	aS bA

Soru 3. $L=\{a^i b^j c^k | i,j \geq 0, k=i+j\}$ Dile ait PDA'yı çiziniz. (Yığında başlangıçta Z var)

Soru 4. Verilen grameri Greibach formuna döüştürünüz.

$$S \rightarrow ab \mid aS \mid aaS$$

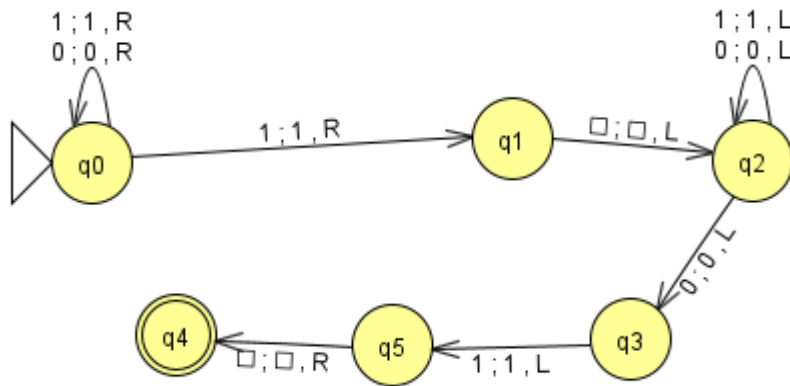

Cevap:

$S \Rightarrow aB \mid aS \mid aAS$

$B \Rightarrow b$

$A \Rightarrow a$

Soru 5. Turing makinasının dilini yazınız.

$L=\{10w1, w = (0,1)^*\}$
